● CVQ-Centrifugal stainless volute pump ~SCS 13,14 (#304,316)

CVQ

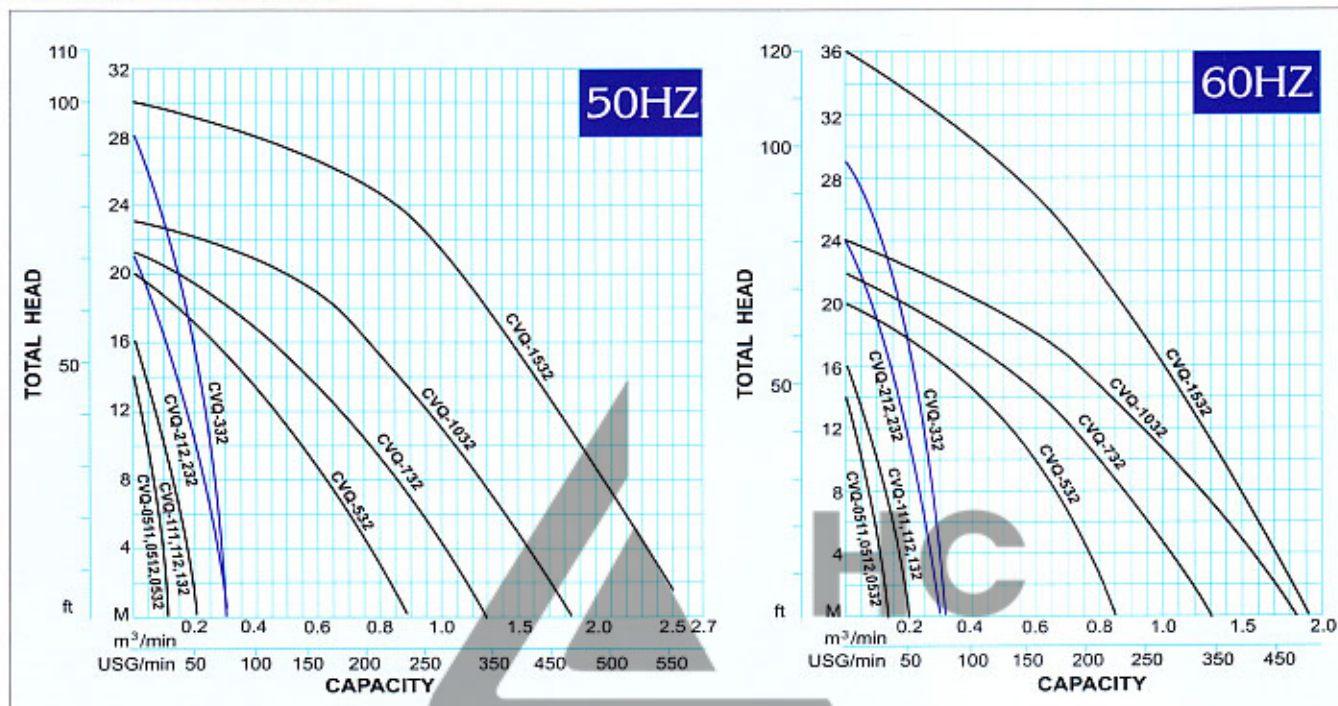

■ FEATURES:

- Extra long life design, since the pump body and all related parts are made of casting stainless SCS 13(#304) or SCS 14(#316), these will have the capability of anti-acid & alkali; and also suitable for using in sea water.
- Since impeller is adjusted with a dynamic balancing there are little vibration and noise and an extraordinary durability is ensured.

■ APPLICATIONS:

- The pumps are applicable in the following industries: Chemistry, heavy-chemistry, medicines, photograph, dyeing, bleaching, food, fishery, drinks, brewing, oil and fat, fiber, oil refining, cosmetic, metal treatment and electro-plating.
- For a member of plant for preventing pollution, sewage and drainage treatment, washing plant, dust collecting plant and clean air plant.

FEATURES:

- Extra long life design, since the pump body and all related parts are made of casting stainless SCS 13(#304), these will have the capability of anti-acid & alkali; and also suitable for using in sea water.
- Equipped with double mechanical seals, together with anti-corrosion viton so as to make up these special assemblies.
- Impeller was balancing processed, this vibration free advantage brings the pump and motor superior servicing life.
